

MESSAGE FROM BRIAN ARCHBOLD, FORMER CHIEF EXECUTIVE, THE EAR FOUNDATION

Until last year I was the Chief Executive of The Ear Foundation (and have now been succeeded by my wife), but I remember so well the huge support given to our work by Destiny of a Child. Following the last successful fundraising event by Destiny of a Child, a significant donation was made to The Ear Foundation to completely rebuild the nursery area. The nursery was transformed from a dull and quite depressing room to a light, airy and friendly room with the necessary equipment where young profoundly deaf children can relax and be taught to develop their new hearing and communications ability through their cochlear implants.

One of the first visitors to the renovated nursery was HRH The Countess of Wessex, who delighted the children and their parents by the way she communicated with the children, particularly those with other problems as well as their deafness.

We would not have been able to complete the work on the nursery without the help of Destiny of a Child, so we wish to express our most grateful thanks to all of you who made it possible.

Brian Archbold
Former Chief Executive
The Ear Foundation
